

Success!

5. You may already have an email registered, if not, under Registered Email Address, click "Add my email" to register an alternative email address.

A screenshot of a web form titled "Registered Email Address" with an envelope icon. It shows the current email address, a confirmation date of "[Never]", and a link to "Add my email". Below this is an "Email Enrollment" section with instructions to enter an email address for a test OTP. There is an input field for the email address and two buttons: "Continue" and "Cancel".

6. Enter your personal email and select Continue. A One Time Passcode will be sent to your email. You will enter that code to verify your email account.

A screenshot of the "Email Enrollment" section. It states that a One Time Passcode (OTP) will be delivered to an email address, with the address redacted as "xxxxxxxxxxxx@gmail.com". It notes that it could take 10 to 15 seconds for delivery. Below this is a label for the "2nd Factor / One Time Passcode" and an input field. At the bottom are "Continue" and "Cancel" buttons.
