

Remove an Exchange Account from Android

Android mail applications are not supported and may not properly access SJECCD Email. Use the instructions below to remove an Exchange account on your Android device.

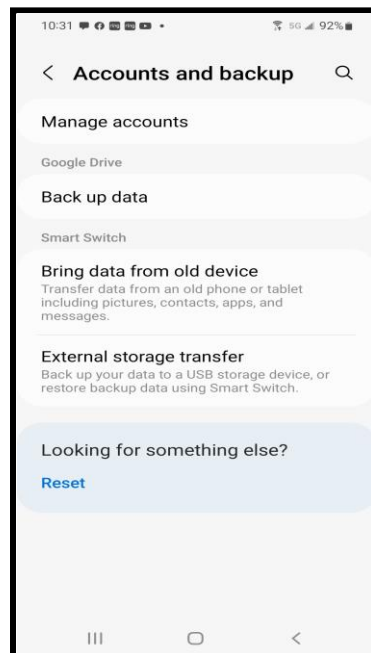

* It is possible that *Exchange Account* will show up as a *Corporate Account* or *Microsoft ActiveSync*.

For Android mail app:

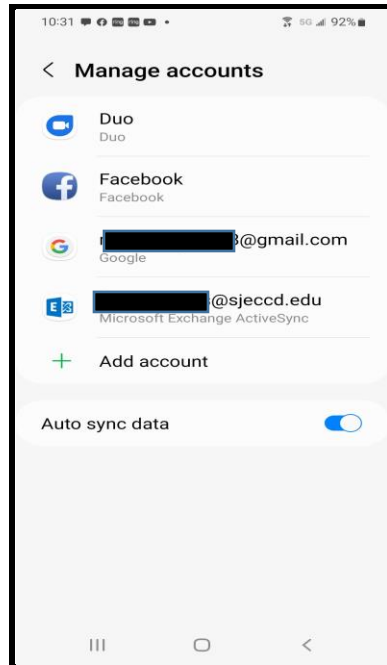

1. On your Android device, go to **Settings** > **Accounts and backup**.

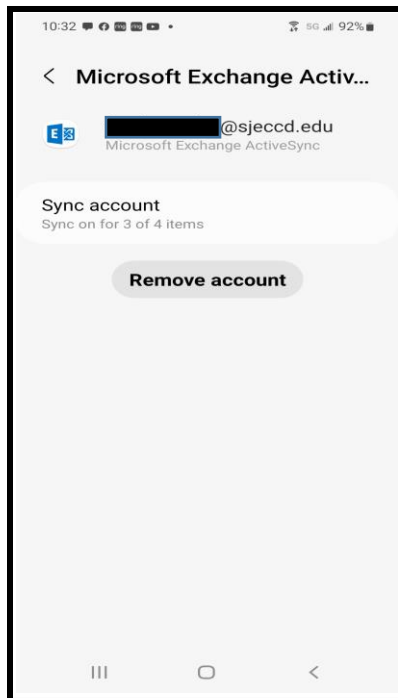

2. The “**Accounts and backup**” screen will open.

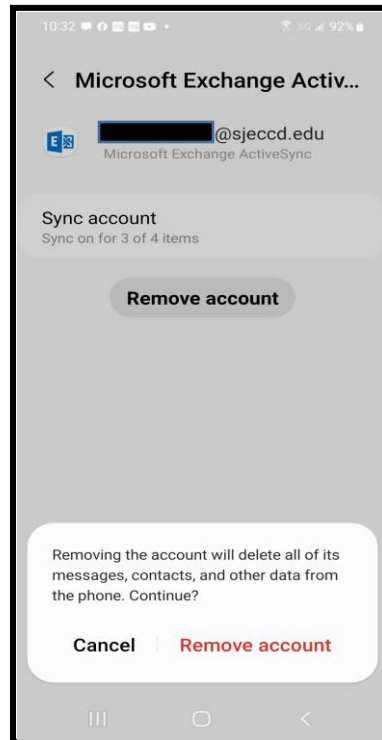

3. On the “*Account and backup*” screen, tap on “**Manage accounts**”. The “*Manage accounts*” screen will open.

4. Tap the **Microsoft Exchange ActiveSync*** you want to delete until the *Menu* window opens.

5. On the *Menu* window, click **Remove Account**. A “*Remove Account*” warning window will open.

6. On the “*Remove Account*” warning window, tap “**Remove Account**” to finish. Your “*Exchange Account*” has now been removed.
