Webi 3		

12. Next, find the paper icon and click on it.

13. You'll be prompted with the "Create a Document" window, click on Universe.

14. Then click on the **OK** button.

	ere to filter table		7/22	
vailable	e Universes:		🖉 Refresh un	iverse list
State	Name	Revision	Folder

4	III			

15. The Universe window will appear, select a Universe and click on the **Select** button.

Universe 2

- 16. After selecting a particular Universe to view, you will get a similar image to Universe 2 above.
- 17. This concludes that the Browser and java client are working together and is successful.

Error/Popup

This may appear after you've installed/upgraded Java and are testing the Webi interface. To resolve,

- 1) Right-click on the message
- 2) Select "run Add-on"
- 3) Then click on the Run button

In some instances, the page will revert back to the *Home* page. If so, just click on the Webi icon again. It should go through without interruptions and get to where you can click on the paper icon to launch access to the various universes.

Note: It may take a while to register your 'right-click' as it is launching the connection of the Webi interface. Let it go for a little while. It should eventually allow you to make a selection.
